Non contact infrared thermometer

Advantage

- Accuracy: $\pm 0.2^{\circ}\text{C}$ (0.4°F), take .T forehead temperature
- Fever alert: beep and backlit alert fever
- Large display screen: visible area 22 * 27.5mm
- Provide C / F reading
- 2 pcs AAA batteries for easy replacement

Specification

- Product name: Non-contact infrared thermometer
- Display resolution: 0.1 °C
- Operating temperature: 10-40 ° C (50-104)
- Temperature measurement rate: 0.85
- Power: DC3V (2 * AAA)
- Size: length 137 width 75 diameter 38
- Total Weight: 90 grams (including battery)
- Measurement range human body: 32-42 °C
- Measuring distance: 1.5-5 cm
- Automatic shutdown: 1 minute

Measuring forehead,
distance 15mm-50mm

Measuring environment,
distance 15mm-50mm
